

#Crere a new folder in proxmox

Right click on PVE and click shell.

Type

“mkdir mnt/audiobooks” and enter

#Create credentials file in pve

```
nano /root/.smbcredentials
```

#Fill your SMB login details like this and save

```
username=smb_username
```

```
password=smb_password
```

#Mount Command

```
sudo mount -t cifs -o rw,vers=3.0,credentials=/root/.smbcredentials
```

```
//192.168.1.61/Audiobooks /mnt/audiobooks
```

#Fstab entry

```
//192.168.1.61/Audiobooks /mnt/audiobooks cifs
```

```
auto,_netdev,credentials=/root/.smbcredentials,uid=1000,gid=1000 0 0
```

```
lxc.mount.entry=/mnt/audiobooks mnt/audiobooks none bind 0 0
```

#Shutdown the container in proxmox

#Add this line

```
mp0: /mnt/audiobooks,mp=/mnt/audiobooks
```

#To this file and save

```
/etc/pve/lxc/103.conf
```

#Start the container in proxmox and add a library using address as /mnt/audiobooks
